PROFILE

Motivated Software Development student at WSB Merito University currently building foundational knowledge in computer science, algorithms, and core technologies. Eager to secure a beginner friendly internship or trainee position where I can develop hands-on technical skills alongside experienced engineers.

WORK EXPERIENCE

LG ENERGY SOLUTIONS WROCLAW

2024 - 2025

Production Operator

- Operated automated machinery and assembly stations for lithium-ion battery manufacturing following strict technical procedures.
- Maintained rigorous quality control standards, inspecting components to ensure zero defects and full compliance with industry safety protocols.

TEAM LEADER ERASMUS+ PROJECTS

2022 - 2024

Student Coordinator

- Selected as student project leader for multiple Erasmus+ programs. Coordinated team tasks, represented the school in international workshops, and helped local and foreign teams communicate smoothly in English.

Driver & Vehicle Maintenance Wrocław

2025 - Present

- Worked as a daily driver in Wrocław, helping and talking with diverse passengers in English. Combined a strong day-to-day work ethic with a personal passion for cars by doing regular inspections and basic DIY maintenance
